## DiamondHead Beach Resort Receives A Sleek New Style

**Fort Myers Beach, Fla. – May 11, 2022** – SunStream Hotels & Resorts is excited to announce that DiamondHead Beach Resort has completed a \$5 million, multi-phase renovation of their suites. All suites now feature light and bright décor as well as many updated furnishings. This follows the complete renovation and transition of the restaurant to Cōste Island Cuisine in 2018 and updates to the Cōste Island Cuisine terrace in 2020.

All 121 suites received new furniture throughout the living, dining, and bedroom areas. Not even the lanai was left untouched as it now features updated furniture to soak in the beach and Gulf views. All suites also received new bedding, including mattresses and bed frames, as well as new artwork, lighting, and window coverings. The new look brings in shades of gray, blue, tan and yellow that complement the beauty of DiamondHead's natural surroundings. The interior of the suites now mimic the colors of the sunshine, sky, sand, and Gulf waters that lie just outside the resort's doorstep.

"We recognize the importance of continuously investing in property upgrades to maintain DiamondHead's status as a premier resort on Fort Myers Beach. We have listened to our guest feedback and revamped our suites to offer what we feel will meet our guests expectations. Our refreshed accommodations are sure to provide a comfortable beach experience that will make our guests feel right at home," says DiamondHead Beach Resort's General Manager, Neil Hopgood.

For more information on DiamondHead's newly renovated suites, visit [diamondheadfl.com/suites](http://diamondheadfl.com/suites) or call **844-258-2506**.
